**Green Fuels America elects E2 ECO Energy to be Sales Representative of Commercial Biodiesel Processor Equipment in Columbia**

SPARKS, NV - Green Fuels America, Inc. of Sparks, Nevada has elected E2 ECO Energy S.A. S. of Barranquilla, Columbia as its Sales Representative in Columbia - South America. E2 ECO Energy will represent the commercial biodiesel processors of Green Fuels with capacities ranging from 500 to 12,500 gallons per day. These include the FuelMaker, FuelMatic, and FuelSonic biodiesel processors.

“E2 ECO Energy has a team experienced with biodiesel production, agro-business, project management, and civil engineering” says Greg Springer, VP and GM of Green Fuels America. “The Columbian market is growing quickly, and we are happy to have a strong representative promoting our equipment”.

E2 ECO Energy will be a strategic partner for Green Fuels America to grow its presence among customers in the region. E2 ECO Energy’s initial focus will be on increasing sales coverage of Green Fuels products." GFA is a solid company with a strong background in manufacturing biodiesel processors that has become known for delivering excellent value to clients worldwide. We look forward to working closely with GFA talented management team, provide outstanding service to our clients, and enhance value in Latin America.” says Ivan D. Vergara GM of E2 ECO Energy.
