Green Fuels America elects Santiago & Sinclair to be Sales Representative of Commercial Biodiesel Processor Equipment in Argentina, Bolivia, Chile, Paraguay, and Uruguay

SPARKS, NV - Green Fuels America, Inc. of Sparks, Nevada has elected Santiago & Sinclair of Buenos Aires, Argentina as its Sales Representative in Argentina, Bolivia, Chile, Paraguay, and Uruguay – South America. Santiago & Sinclair will represent the commercial biodiesel processors of Green Fuels with capacities ranging from 2,000 to 12,500 gallons per day. These include the FuelMaker, FuelMatic, and FuelSonic biodiesel processors. In addition, they will also represent Green Fuels personal and small business processor line which includes the FuelPod™ and FuelMeister II™.

“Mr. Carlos St. James is the Managing Director of Santiago & Sinclair and has over 25 years experience working throughout Latin America. He is also the Founder of the Argentine Renewable Energies Chamber. In 2008 he was voted “Biofuels Personality of the Year” by readers of *Biofuels Digest*.” says Greg Springer, VP and GM of Green Fuels America. “We are very pleased to have Carlos and his team representing our products”.

“Argentina is already the world’s fifth largest biodiesel producer,” stated Carlos St. James, “and this year a B5 national biodiesel requirement began. Green Fuels has a proven track record with its award-winning technology, and its product line is an excellent fit for the region. We are proud to have been selected as their reps,” he added.
